Re: In the matter of the Commission's investigation into the pipeline safety of Southwest Gas Corporation in light of incidents that occurred in Arizona in 2021 (G-01551A-21-0305)

Mr. Derr:

I am writing to request additional information on the status of your Distribution Integrity Management Program and efforts to monitor and replace failing portions of Driscopipe 7000 and 8000 in the Southwest Gas system. Specifically, I would like Southwest Gas to provide quarterly updates on all Driscopipe 7000 and 8000 leaks and replacements in your Arizona service territory. I would like this information presented both at a statewide level and by geographic location. I also ask Southwest Gas to identify any individual projects in the same geographic area that required both main and service line repair or replacement. For example, main and service lines in the same subdivision or 5 mile radius. I would like the quarterly report for Q1 2022 to be filed by June 15, 2022. I would like all subsequent reports to be filed within 15 days after the close of the quarter. Thank you for your cooperation and dedication to providing customers with safe and reliable service.

Sincerely,

Anna Tovar
